

Downloads for E-Readers are now available on our Web site

Some Useful Tips for Using Overdrive

1. You have to have a valid library card.
2. Kindles are not compatible. (Although we're told they will be soon.....)
3. Limit 3 e-items / card.
4. Items will automatically be deleted after two weeks.
You can choose a one week lending period if you read faster, and want to check out more books sooner. (So, once you've checked out 3 items, you cannot check out any more items until these are off your account.
You cannot return a book early - it's there until your designated loan time.
If you wish to make your loan time 1 week instead of 2, you can do that before putting the specified item into your basket.)
5. You cannot use a library computer to download a book. It has to be done through the computer that is connected to your e-reader account. You CAN come into the library with your laptop and use the wireless internet.
